Kodo One Earth Tour 2013: Mystery

Artistic Director Tamasaburo Bando's Second Production

Amidst reverberations like rumbles in the earth large serpents coil, demons and lions move wildly. They surface from the gloomy dark, eerie at times, and in some respects, even nostalgic... This work fuses Kodo's real worth, the dynamism of taiko expression, with the wondrous beauty and true charm that lie within rituals expressing the worship of myriad gods and reverence for nature that have been traditions in Japan since ancient times. This performance takes you on a voyage to the extraordinary, to a mysterious realm that lies in the beyond.

About Kodo

Exploring the limitless possibilities of the traditional Japanese drum, the taiko, Kodo is forging new directions for a vibrant living art-form. Since the group's debut at the Berlin Festival in 1981, Kodo has given over 3600 performances on all five continents, spending about a third of the year overseas, a third touring in Japan and a third resting and preparing new material on Sado Island. Collaborations with other artists and composers extend right across the musical spectrum and Kodo's lack of preconceptions about its music continues to produce startling new fusion and forms. We have welcomed Kabuki actor, Tamasaburo Bando as our Artistic Director since 2012.
